WINE CABINET

*Spiral Cellars*

*“Wine is a liquid living thing.  
Its life cycle comprises youth,  
maturity and death. When not  
treated with reasonable respect  
it will sicken and die.”*

Julia Child

## WINE CABINET

Enjoying the finest wines at their best is one of life's great pleasures. However, finding an elegant means of storing your collection is always difficult, particularly when space is limited. At Spiral Cellars, we believe one should never compromise when it comes to wine storage – that's why we've created the elegant new Soho wine cabinet.

# WINE STORAGE REDEFINED

Our Spiral Cellars have been delighting discerning wine-lovers for over 35 years. Now we've poured our passion and expertise into crafting a free-standing fully climate-controlled piece of furniture that's ideally suited to enhancing your chosen entertaining space, and your modern lifestyle.

The Soho is not a fridge or kitchen appliance, but a wine cabinet that controls the temperature and humidity of the internal air to replicate wine cellaring conditions. It also creates a wine display that not only looks good but is also able to mature to perfection.

Designed to suit the discerning wine-lover looking to store their select collection in any room of the house, the Soho is unlike any other wine storage product on the market. And thanks to its climate control system, it also provides the humidity and temperature to allow your wine to gently mature over time.

The Soho is considerably easier and more flexible than a wine room or cellar, and can be installed quickly and simply in a couple of hours. No building work, or complicated mechanical installation, no mess, no fuss. Just plug the Soho in, switch on, and you're ready to fill it with wine.

# SOHO *range*

## The exacting standards you deserve

Treat your wine collection to a 'cellar away from the cellar' – and yourself to splendid home wine storage.

The Soho wine cabinet features state-of-the-art design, fine craftsmanship, precision engineering, and combines exceptional form and function. It stands 2200mm tall and is available in 900mm, 1200mm and 1800mm width options. Each one creates a cellar-grade environment to a minimum of 13°C in normal room conditions.

# SOHO *configurations*

## Configure your Soho to suit your space

There are two display options; shelves or pegs. Both are designed to accommodate all common standard wine bottle shapes, including Riesling, Bordeaux, Burgundy, Champagne, and the wider-bodied New World Chardonnay and Pinot Noir bottles.

There are alternative shelf and peg options available for wine magnums that can also store most standard bottles. Each shelf and peg arrangement is lit with concealed LED lighting to illuminate every individual bottle. Soho also features an option of a back-lit faux onyx panel that features independently controlled dimmable lighting.

### Soho 900

Capacity

56 bottles on shelves or

66 bottles on display pegs

Single door, configured for  
left or right-hand opening

Approximate unladen weight – 380kg

Our experienced installation team will deliver and assemble your Soho in your desired location, taking no more than a few hours.

We recommend you position your Soho wine cabinet in a room with a minimum height of 2.4m, with a minimum area of 40 cubic metres, with good air flow above and in front and free of obstructions. Its adjustable feet allow for minor changes in floor level, and when fully stocked it will be heavy, so please ensure your floor can take the weight.

Please note, the Soho is designed to store wine at cellaring temperatures not serving temperature. It will not chill below 12° C and is designed to operate between 13-16° degrees subject to room conditions. It is suitable for both long-term wine cellaring and for storing bottles intended for drinking immediately. Room temperature, heating and direct sunlight can all adversely affect your Soho's performance.

Your Soho comes with a one-year warranty and only requires one standard power socket. Annual servicing is recommended to ensure optimum performance.

## Soho 1200

Capacity

88 bottles on shelves or

99 bottles on display pegs

Double doors

Approximate unladen weight – 470kg

## Soho 1800

Capacity

136 bottles on shelves or

132 bottles on display pegs

Double doors

Approximate unladen weight – 660kg

# SOHO *details*

The Soho is available in three sizes with a choice of standard design finishes, storage methods and trims to fit a wide range of interior styles.

Special finishes are available to create your own individual specification subject to request and special order terms. We can tailor your Soho to blend in subtly with your existing interior décor, or provide you with a stand out piece that really makes a statement. The choice is yours.
